FOURTEENTH BIENNIAL REPORT

OF THE

Montana State Board of Equalization

TO THE

Governor and Members of the Thirty-Second
Legislative Assembly of the
State of Montana

For the Period

July 1, 1948, to June 30, 1950

JOHN A. MATTHEWS, Chairman
SAM D. GOZA
C. A. ROBINSON

}

Members of the Board

Letter of Transmittal

Helena, Montana
December 1, 1950

To His Excellency, The Governor
and Members of the Thirty-Second Legislative Assembly
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-701 (18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1948 to June 30, 1950.

STATE BOARD OF EQUALIZATION,
John A. Matthews, Chairman,
Sam D. Goza,
C. A. Robinson.

REPORT OF STATE BOARD OF EQUALIZATION

To His Excellency, The Governor,
and Members of the Thirty-Second Legislative Assembly:

Gentlemen:

The biennium covered by this report was marked by increases all along the line in all major items comprising Montana's ad valorem tax structure. The total assessed value of all property and the average number of mills levied against that property for state, county and school purposes reached all-time highs, with the result that the various levels of state government presented to Montana taxpayers in 1949 and 1950 the highest tax bills in our history. This may account in some measure for an appreciable increase in the percentage of current tax delinquency which occurred during the last two years.

The total net debt of state, counties and schools turned sharply upward, due in all instances to the sale of bonds authorized by popular vote. The proceeds of the state issue are to be used for the construction of buildings and facilities at the units of the university; the county bonds were issued chiefly for construction of hospitals, and the proceeds of the school issues are being or will be used to pay for new buildings, additions and equipment for district schools.

Viewed in the light of past experience, the picture presented in the foregoing brief outline is quite satisfactory. The increase in assessed value does not represent higher valuation of property on the roll in prior years, so much as it represents additional property valued by assessing officers with precautionary regard for inflation tendencies. The low point in assessed value of all property was reached in 1939. The all-time high of 1950 is an increase of more than \$527,000,000 or 52 per cent over the 1939 figure. Assessments of real estate and improvements make up about \$125,000,000 of this increase. The balance, \$402,000,000, represents gains in assessments of livestock, personal property other than livestock, railroads, public utilities and net proceeds of mines. The changes are set out in detail on pages 24 and 25 of this report.

The amount of property taxes levied for strictly state, county and school purposes in 1950 was higher by \$17,200,000 or 84 per cent, than the total levied for the same purpose in 1939. State taxes doubled despite elimination of the general fund levy during intervening years. School taxes more than doubled and county taxes increased 55.3 per cent. At first impression these increases may appear large but when reduced to terms of purchasing power they are not so pronounced. County taxes measured by that yardstick have actually been reduced.

The delinquent tax situation in Montana is better than in most states and the small increase in current delinquency during the last two years does not change the view. The current rise appears to be more in the nature of a normal fluctuation than the beginning of a period of inability to pay. The delinquency on the 1939 levy was 10.6 per cent. Delinquency on the 1949 levy was less than four per cent. The total amount of delinquent taxes for all purposes for all years in 1939 was \$15,895,000; the total June 30, 1950 was \$3,948,000, which means that in addition to yearly current collections, \$11,947,000 in back taxes was paid during the period.

At the close of the last biennium, June 30, 1948, the cash surplus in the State General Fund was \$8,096,000, despite the elimination of the property tax levy for that fund by the State Board of Equalization, from 1942 through 1947. This surplus rose to \$13,374,000 at the close of the biennium June 30, 1950, a circumstance which enabled the Board to again eliminate the general fund levy for the ninth consecutive year. The elimination of this levy for nine years resulted in a saving to the taxpayers of \$6,941,000 over the period.

A levy of six mills was imposed for university maintenance in 1949 and again in 1950 and a levy of one mill was made each year to take care of interest and sinking fund requirements of university bonds. The one-half of one mill levy for the State Hospital bond interest and sinking fund has been continued. A four mill levy applicable to livetsock valuations only has been imposed at the request of the Livestock Commission and the Livestock Sanitary Board.

1949 Assessments

The assessed value of all property in the state in 1949 was \$1,522,121,402, an increase of \$147,847,741 over the 1948 figure. Practically every major class of property contributed to the increase.

Irrigated land, with an increase of 35,600 acres over 1948, increased \$787,000 in assessed value. Dry tillable land increased 229,580 acres and gained \$1,304,000 in value; grazing land decreased 122,000 acres and \$795,000 in value. The assessed equity in state lands under contract remained practically the same. Farm improvements were up \$4,900,000.

Loss of 27,900 acres of timber land resulted in a decrease of \$320,000 in total assessed value of that class. Industrial sites and improvements gained \$8,600,000. The assessed value of city and town lots increased \$701,000 and improvements gained \$15,371,000. The total net gain in all real estate and improvements was \$31,854,000.

All classes of livestock except cattle showed nominal decreases in numbers and value. Horses decreased 13,600 in number and \$310,000 in value; sheep fell off 58,100 in number and \$177,000 in value, and swine and miscellaneous livestock dropped \$95,000. Cattle, with a gain of 41,700 head, increased \$3,527,000 in total value, making a net gain in total livestock value of \$2,900,000.

Turning to personal property, other than livestock, the records show that the assessment of farm machinery and equipment increased \$11,069,000 in 1949 over 1948; manufacturing and mining machinery increased \$1,069,000; other machinery \$2,567,000; household goods \$4,223,000; merchandise \$5,400,000; furniture and fixtures of stores, offices, etc., \$1,315,000; oil equipment \$587,000; bank stock \$1,140,000; solvent credits \$1,400,000; motor vehicles \$41,351,000 with an increase of 19,763 in the number of vehicles assessed. Agricultural products gained \$22,679,000 and the total of all personal property other than livestock was up \$94,020,000 over the 1948 figure.

Allocation of public utilities by the State Board of Equalization increased \$12,191,000 in 1949 over 1948.

Net proceeds of mines increased \$6,403,000.

1950 Assessments

In 1950 the total assessment rose to \$1,541,850,759, an increase of \$19,729,357 over 1949. Irrigated land, with 15,600 fewer acres, decreased \$583,000 in total value. Dry tillable land, with substantially the same acreage as in 1949, gained \$219,000 in value. The number of acres of grazing land on the roll increased 159,700 acres but gained only \$178,000 in value, and the assessed equity in state lands under contract remained substantially the same as in 1949. The total number of acres of agricultural land increased 151,218 but the total assessed value decreased \$113,700. Farm improvements showed a gain of \$3,800,000, representing the value of additional farm improvements.

As in the prior year, city and town lots and improvements increased in value on the roll. Lots were up \$600,000, improvements \$14,800,000. This made a net increase in all real estate and improvements of \$23,183,000.

The assessment of livestock decreased \$9,300,000 under 1949. Cattle dropped \$7,550,000 in value; horses declined \$220,000; sheep fell off \$310,000, while all other livestock increased \$42,000.

Personal property continued its upward climb with a total of \$445,288,000 contrasted with a comparable figure of \$436,671,000 in 1949. Motor vehicles increased \$15,313,000 in assessed value; bank stock increased \$940,000; household goods \$1,870,000; farm equipment \$4,185,000; merchandise \$3,105,000; furniture and fixtures of stores, offices, etc., \$600,000; manufacturing and mining machinery \$360,000; solvent credits \$1,628,000; machinery other than farm, mining or manufacturing \$1,380,000. The principal decrease was in agricultural products which dropped \$20,400,000 under 1949.

The value of public utility lines assessed by the State Board of Equalization increased \$761,000. Lower production and higher costs resulted in a decrease of \$4,600,000 in net proceeds of oil, coal and metal mines.

The assessed value of farm land in 1950 averaged \$5.16 an acre, compared to an average value of \$11.00 in 1923. As the books closed in 1950 farm lands were assessed at 48.99 per cent of the total placed upon that class of property in 1923; livestock had a taxable value of 164.31 per cent; utilities were valued at 96.69 per cent of the 1923 figure, and all other property showed a valuation of 139.26 per cent of the 1923 total.

The continued trend away from real estate to other forms of property is reflected in detail figures on the source of the property tax dollar. In 1936 farm lands and improvements paid 30.8 cents of the tax dollar; utilities paid 29.2 cents; livestock paid 4.6 cents; and other personal property paid 12.5 cents. In 1950 farm lands and improvements paid 21.6 cents; utilities paid 25.3 cents; livestock paid 7.0 cents; and other personal property paid 21.3 cents.

Analysis of the property tax dollar shows that the State received 10.73 cents in 1936 and 8.21 cents in 1950; schools received 40.23 cents in 1936 and 46.23 cents in 1950; the county share in 1936 was 36.55 cents and 31.80 cents in 1950.

County Debt

Despite the sale of building and improvement bonds issued by a few counties during this biennium all counties were in excellent financial condition as the books closed June 30, 1950. If all county money now on hand could be used to pay outstanding obligations there would be a surplus of several million dollars. In computing net debt on the theory that each fund must stand alone the total at the close of the year was \$3,821,285, or \$970,000 higher than the corresponding figure for 1948, the increase occasioned by sale of the new bonds. In 1923 the total net county debt was \$27,710,650.

The normal debt limit of a county is two and one-half per cent of its assessed valuation. As of June 30, 1950, 24 counties had no debt; nine others had debts so small that for practical purposes they, too, could be considered debt free; 11 had debts of less than one-half of one per cent; two had debts of less than one per cent; eight were under one and one-half per cent, and one under two per cent. Only one county, with a debt of 2.45 per cent, approached the limit.

In preparing this report the State Board of Equalization has attempted to present a picture in some detail of the present license and tax status. The recommendations on pages following are directed chiefly to improvement in required administrative procedure.

COMMENTS AND RECOMMENDATIONS

Classification of Land and Appraisal of Improvements. In 1919 the Sixteenth Legislative Assembly enacted a law requiring county commissioners of each county to provide for the classification of lands for the purposes for which they were valuable. Supervision of the work was placed with the State Board of Equalization.

Classification under this law was not satisfactory. No information such as that provided by production records, soil surveys, soil maps, aerial maps and other pertinent records now accessible were available at that time. Almost the sole guide was topography. In some counties land was classified as "tillable" if it was level enough to be plowed. In others only land actually under cultivation was so classified. Unbroken productive land was considered "grazing." In one instance tillable land was further classified into "horse plow land" and "engine plow land," and graded under each division.

No time limit was fixed for completion of the work. As late as 1924 more than 2,000,000 acres were on the roll as "railroad land." By 1926 they had been assimilated, somewhat hap-hazardly, into the other classes.

In grading land within the classes, each county usually started at the top and worked down. In grading dry tillable, the best land in the county in that class was designated No. 1 or, in some counties, 100 per cent land. Land considered not quite so good was called No. 2, or 80 per cent land, and so on. There being no reliable information bearing on actual productive capacity, land graded No. 1 tillable in one county might, and was, considered No. 2 or 3 in a more productive county. The same was true of the lands classified as grazing. Timber lands were quite uniformly graded originally because of the assistance rendered by the State Forester and private owners of large holdings.

As a result of it all, the program of state-wide uniformity contemplated by the legislature was split in 54 programs, all different. There was some improvement within each county. Land with substantially the same topographical features were classified alike; but as related to other counties differently situated there was no uniformity at all. With the passage of years the situation has undergone changes, but it has improved little, if at all.

No one can be censured for the failure of this first attempt at uniform classification to accomplish all that was anticipated. The desired result could not be attained with data and facilities available at that time. However, the money was not wasted. The leveling of inequalities within each

county has been worth much more than the total cost of approximately \$1,500,000.

Senate Bill No. 34, providing for classification and valuation of land and appraisal of city and town lots and both rural and urban improvements was introduced during the 1949 session and killed in Senate Committee. The bill was not sponsored by this Board, but it is our intention to sponsor a similar measure, somewhat modified, in the 32nd Assembly.

The bill which we propose will not require the valuation of lands. Such a provision would defeat the purpose, which is to classify like lands alike. Once that is accomplished the valuation will be uniform. It may be up or down as regards individual tracts, but an overall revaluation of lands is not in prospect. That could be done at any time by assessors and the State Board under present laws.

When the legislature first took official cognizance of the situation in 1919, the only state-wide levy except for bonds was one of 2½ mills for the State General Fund. That was the only direct interest the State had in the matter. Pressure came from taxpayers in counties that were assessed relatively higher than others. They rightly objected to paying more than their proportionate share of state taxes.

Now the state-wide levy is three times that of 1919; almost double what it was in 1948. The present school finance program requires a district levy of five mills, a county-wide levy of 10 mills for elementary schools, and another county-wide levy of 10 mills for high schools. The amount of state aid hinges on the amount raised by these levies. The smaller the amount raised the greater the amount the state must pay. If property in a county is undervalued, it follows that more state assistance is required. That situation tends to be attractive. Any undeserved aid granted to undervalued districts must be withheld from funds that in fairness should go to other districts. If the recently inaugurated school program should encounter difficulties, it is conceivable that the major trouble will lie in inequality in assessments of real estate and improvements.

The estimated total cost for carrying out the classification and appraisal program is \$2,000,000. \$500,000 will pay for all the work and records necessary to reclassify lands. The cost of appraisal of improvements will not exceed \$1,500,000. The Montana Association of County Commissioners and the Montana Assessors' Association have gone on record in favor of this program. We recommend that suitable legislation be enacted.

Corporation License Tax: Section 84-1508: The largest source of deficiency assessments made by this Board stem from changes in Federal net income as a result of examination by Internal Revenue Agents.

At the present time, the number of foreign corporations voluntarily submitting a report of these changes is negligible, and it is believed that the loss of revenue by reason of this foreign "loophole" is significant. In regard to domestic corporations, we believe that much unnecessary litigation and administrative expense could be avoided if the law were amended so as to require that a report of these changes be filed with this Board.

We therefore recommend that Section 84-1508, Revised Codes of Montana, 1947, be amended to incorporate a provision requiring corporate taxpayers to report to the State Board of Equalization any changes or corrections made in Federal Corporation Income Tax returns by Internal Revenue Agents and imposing penalties for failure to do so.

Section 84-1502 (5): In order to clarify our present law and make definite and certain our administration policy it is recommended that Section 84-1502 (5) be amended to limit the deduction for Federal Income and excess profit taxes to cash payments on net income taxable under this statute.

Statute of Limitations: It is the recommendation of this Department that a prohibitory statute of limitations be enacted to provide that neither a deficiency assessment can be rendered nor a refund claim processed after five (5) years from the due date of the return, but that this statute of limitations should not be operative if the return as filed omits 25% or more of net income as corrected or if waivers have been executed in regard to Federal income tax returns.

Section 84-1502 (3): Considerable confusion prevails at the present time as to the method of determining percentage depletion of minerals, oils, etc. Section 84-1502 (3) provides that the deduction shall be computed in accordance with the provisions of the Internal Revenue Code. This Code provides that the deductions shall be allowed as a percentage of "net income." Confusion arises as to whether the deduction is to be a percentage of Montana corporation license tax "net income" or of Federal income tax "net income." It is the recommendation of this Department that this section be amended and the law clarified to provide that the percentage depletion is to be computed upon the basis of Montana "net income."

Personal Income Tax: Section 84-4907 (f) (1) & (2): Which relates to military benefits, should be given some consideration. The present law grants benefits only to military personnel who have been discharged. If that was intended in the law, it should be spelled out in clear language.

Section 84-4912: Provides for a tax on either the fiduciary or beneficiary of an estate. Under the Federal income tax law, taxes due from estates be-

come a lien on the property of the estate and follows these assets into the hand of the beneficiary from whom any taxes due from the estate may be collected. A similar provision in the state law would prevent the escape of considerable income tax because some estates are probated, closed and the fiduciary discharged before the audit of returns has been completed.

Section 84-4110: Requires fiduciaries to pay all taxes, prior to distribution. This section should be incorporated or at least referred to in the income tax law.

Section 84-4913: Provides for the filing of returns by information agents. This section primarily relates to filing of reports of the payment of interest, rents, salaries, annuities, dividends and other fixed or determinable profits or income.

The Bureau of Internal Revenue has about fifty income tax auditors in the field making income tax examinations. The adjustments made by the Bureau are usually applicable to state returns. Access to federal examiner's reports enable us to adjust Montana State returns without field examination. Access to such reports is sometimes delayed for three or four years. This delay is due to Bureau procedure, over which we have no control.

Each taxpayer is furnished with a copy of the examiner's report promptly. On June 29, 1937 the Board adopted a rule requiring taxpayers to submit a statement of all Bureau changes. Few taxpayers comply with this rule. If it were made statutory with a time limit and penalties, the work of the income tax department would be reduced and collections expedited.

Section 84-4919: Prescribes the time when returns should be made. Under the terms of this section a decedent who dies between January 1 and December 31 is not required to file a return before April 15 of the following year. Many estates are probated and closed prior to the time when this section requires the filing of a return. This section should be amended to provide that decedents returns should be filed on or before the 15th day of the fourth month after death.

Section 84-4920: Provides that the amount of tax due under any return shall be determined within three years after the return was made. The Board has never construed this language to constitute a statute of limitation. Section 275 (a) of the Internal Revenue Code, reads as follows:

"The amount of tax imposed by this chapter shall be assessed within three years after the return is filed, and no proceedings in court without assessment for the collection of such tax shall be begun after the expiration of such period." It will be noted that the state law omits the prohibition clause contained above. Most, if not all general statutes of limitation in the Montana Code contain a prohibition clause. A statute of limitation reduces the revenue. It discriminates against the taxpayer who always files a correct return. The Board takes the position that the Legislature would have been more specific if they had intended

this language to constitute a statute of limitation. Only a relatively few taxpayers would benefit from such a statute.

There is sufficient demand for a clarification that some action should be taken.

Net Proceeds of Mines: Section 84-5404. Several oil and gas operators have claimed deductions for the cost of leases purchased, with or without equipment in place, under Section 84-5404. The claims have been disallowed by this department as deductions not contemplated in the law. Allowance of such claims could conceivably eliminate a large number of net proceeds assessments. We recommend the section be amended to definitely provide that such deductions may be not allowed.

Premium or Bonus Payments—Under a decision of the Montana Supreme Court, premium or bonus payments received by mine operators as an inducement to increase production may not be considered a part of the gross yield or value of production in computing net proceeds. We recommend that the law be amended so as to specifically define "gross yield or value" as the entire amount received by the operator from his mining operations including premium or bonus payments.

Production Credit Associations: We have special laws providing for the taxation of banks, building and loan associations and insurance companies. These all deal with the assessment of moneyed capital and solvent credits. We recommend a similar law to be enacted providing for the assessment and taxation of production credit associations.

Taxation of Interstate Aircraft: Montana has no law providing for taxation of aircraft engaged in interstate commerce. A bill intended to remedy this omission was killed in the house last session.

We recommend that the enactment of the bill be given further consideration.

Section 84-4202: This section relates to the levy to be used in computing unsecured personal property taxes. It apparently conflicts with the provisions of Section 84-4209. We recommend that it be amended to conform to Section 84-4209.

Section 84-416: This section relates to the assessment of personal property situated in a county other than that of the owner of such property. It was enacted in 1895. It is ambiguous, obsolete and apparently conflicts with the provisions of Section 84-4209 enacted in 1933. We recommend that Section 84-416 be repealed.

Oil Production License Tax: Our present law imposes a tax of two per cent of gross value of production for the privilege of engaging in the business of producing oil. It has been held that premium or bonus payments may not be included in the value of production in computing the tax.

The law should be amended so as to include in the taxable gross value any and all such premium or bonus payments received by producers.

Phosphate Rock and Vermiculite: We impose license or occupation taxes for the privilege of engaging in the business of producing coal, oil, cement, plaster and metals. We recommend that similar laws imposing such taxes on producers of phosphate rock and vermiculite be enacted.

Trade Stimulators: We recommend that the act be amended to permit counties to retain a percentage of receipts on sale of stamps to cover cost of sale.

Inheritance Tax: Section 91-1401 of the Revised Codes of Montana of 1947, with respect to probate proceedings, should be amended to require application for letters within six months after death. This would force into the open many estates that are now dormant and which are not brought to the attention of the Board for inheritance tax purposes. Some estates are quite large and the assets are reported to be disappearing.

Since our reciprocity law was passed in 1945, most of our non-resident consents for transfer have been issued without collecting any tax. We recommend that a \$2.00 fee be imposed on all such transfers.

Section 91-4405 of the Revised Codes of Montana of 1947 should be amended to provide that inheritance taxes be imposed upon the fractional interest transferred, irrespective of original ownership or contribution.

Section 91-4421 of the Revised Codes of Montana of 1947 might be amended or a new statute enacted, that would apply to residents as well as non-residents with respect to bank accounts and safety deposit boxes.

A bank should be prohibited from turning over any bank accounts or other money in which a decedent had an interest at the time of death unless the bank withheld a sufficient amount to pay the inheritance tax. The bank should also be prohibited from permitting anyone to enter or remove contents of a safety deposit box, whether individually or jointly held, until an agent of the Board inspected such contents. The bank should also be made liable for any loss of tax by reason of any false or fraudulent report by the bank to this Board.

Section 91-4421 (3) of the Revised Codes of Montana of 1947, with reference to estates partly within and partly without the State of Montana, and the exemptions and deductions allowed, should be amended by limiting such pro-rated exemptions and deductions to estates within the United States of America.

Section 91-4439 of the Revised Codes of Montana of 1947 should be amended to permit a reappraisal within two years in case of fraud.

Section 91-4449 of the Revised Codes of Montana of 1947 should be amended to specifically require the Clerk of the District Court to submit the 2-D reports to the Board. We have difficulty in getting these reports from some of the counties with the result that the inheritance tax department has no information that some estates are lying dormant for several years.

We recommend that the Board be given jurisdiction to determine inheritance taxes in small estates not requiring probate proceedings and which do not involve real property.

We recommend that Sec. 91-4430, R. C. M. 1947, as amended by Chapter 80, Laws of 1949, be amended to clarify the matter of notice of hearing.

Cigarette License Tax: We recommend that the law be amended to require annual licenses only from wholesalers who should affix all stamps. The wholesaler should be bonded and licenses subject to revocation upon violation of the law.

Coal Production License Tax: Section 84-1302 of the Revised Codes of Montana of 1947 provides for an annual exemption of 50,000 tons in computing coal license taxes. We recommend that this exemption be reduced to 1,000 tons and that it be restricted to the particular mine or mines operated rather than to the individual operators.

Gasoline License Tax Law: Section 84-1818 of the Revised Codes of Montana of 1947, as amended by Chapter 198, Laws of 1949, should be amended to clarify the meaning of the word "use," to make certain that claims for refund will not be made for gasoline spilled, destroyed by fire, or stolen.

Section 84-1802 of the Revised Codes of Montana of 1947 provides for a deduction of two per cent (2%) for evaporation and other loss in computing the gasoline license tax. Experience has convinced us that this deduction is excessive. We recommend the law be amended to provide for a deduction of three-fourths of one per cent for evaporation only, and a new provision or a new law be enacted to take care of losses from other causes.

Dealers are now required to file reports not later than fifteen (15) days after the end of each calendar month. This does not give sufficient time to prepare such reports. We recommend that they be required to file not later than the twentieth day of each month.

Users of diesel and similar fuel are required to obtain permits from the State Board of Equalization. Proper identification of vehicles using such fuel would facilitate administration of the law. We recommend that all such vehicles be required to carry and display such identification as the State Board of Equalization may deem necessary and prescribe.

Commercial busses and trucks: Commercial busses and trucks now pay a tax of $\frac{1}{2}$ of 1 per cent of gross receipts for the privilege of using the highways. The law is administered by the Railroad and Public Service Commission. A reasonable tax of 5 per cent of gross would bring in a minimum of one million dollars annually. Many states impose the tax on a ton and passenger-mile basis. Others base the tax upon gross receipts. From an administrative standpoint the gross receipts tax is much to be preferred. It is more simple to administer; easier to verify and, since gross receipts bear a direct relation to the weight of shipments and length of haul, falls with the same incidence on damage to roads as the more complex ton mileage method of taxation.

SUMMARY OF ROUTINE ACTIVITIES

The activities of the State Board of Equalization are so extensive and varied in scope that an outline only can be given here. The work falls naturally into three broad divisions:

- (1) General supervision of the administration of all state tax laws.
- (2) Assessment of railroads, power lines and other property extending into or through more than one county in the state.
- (3) Assessment and collection of license, income and inheritance taxes.

In the exercise of its general supervisory powers over the administration of assessment, tax and revenue laws of the state, the Board prescribes rules and regulations governing county officials in the performance of their duties, prepares and prescribes uniform forms for the use and assistance of such officials, conducts hearings on appeal and on its own motion, advises, directs and assists municipal tax officials, collects and compiles information from administrators within the state and from state departments of other states, and performs a multitude of duties which naturally devolve upon it in connection with this phase of the work.

Property Assessments

The taxable value of railroads, power lines, natural gas lines, telephone and telegraph lines, oil pipe lines and other properties assessed by the Board approximates 28 per cent of the entire state taxable valuation. These assessments require consideration of stock and bond values, past and present net earnings, future prospects, present condition, and numerous other factors reflecting the actual value of the properties assessed. Forty-seven such assessments, aggregating more than three hundred million dollars, were made in 1950.

The Following License Taxes Are Administered by the State Board of Equalization:

Gasoline License Tax	Contractors License Tax
Oil Production Tax	Electrical Energy Tax
Cement and Plaster License Tax	Natural Gas Tax
Coal License Tax	Telegraph Company Tax
Carbon Black License Tax	Chain Stores License Tax
Metal Mines License Tax	Telephone License Tax
Sleeping Car Tax	Theater License Tax
Corporation License Tax	*Slot Machine License Tax
Freight Line Tax	Trade Stimulator
Inheritance Tax	Cigaret Tax and License
Personal Income Tax	

NOTE: *Invalidated by Supreme Court, June 30, 1950.

LEGAL DEPARTMENT

Mr. H. O. Vralsted has continued to serve as Tax Counsel for the Board. Because of the complexities inherent in tax laws, a special knowledge thereon is necessary to a proper understanding of such laws and the administration thereof.

The duties of this department have grown in volume to such extent as to require the services of an assistant tax counsel. Mr. Daniel J. Sullivan of Butte was appointed August 1, 1950. He is a graduate of the University of Montana, law department, and admitted to practice in September, 1949. He took a post graduate course in taxation at New York University, graduating in June, 1950.

The importance and value of this department has been demonstrated repeatedly. Aside from numerous daily legal problems which arise in the several departments of this Board, all of which are resolved by the legal department, the State of Montana has been directly benefited by substantial sums of money due on taxes in excess of amounts reported. To illustrate, such include approximately \$15,000 under the increased gasoline license tax law but covering a period not satisfactorily covered by the statutes. Increased amounts are collected on income taxes and corporation license taxes, as well as inheritance taxes.

In one estate the gross assessed value was increased by more than \$33,000 and the amount of inheritance tax thereon was increased by \$1,600. The total of such increased amounts collected as a result of the services of this department amounts to a great many thousands of dollars during the biennium.

In our previous biennial report mention was made of the Estate of Augusta Kohrs, Deceased, then pending on appeal to the Supreme Court of Montana. It involved a disputed tax of approximately \$38,500 over and above the amount determined by the District Court. This Board claimed the additional amount of \$38,500 and its views were sustained by the Supreme Court. The appellate court also sustained the position of this Board in the Estate of Clara Bullard Brown, Deceased, but adverse rulings were handed down in the Estates of Carrie Sehree and Elsie Kuhr, decedents.

Field Supervisor

This position was created in 1939 to meet the need for a liason man to co-ordinate the work of the various county taxing officials, and establish closer relationship between such officials and the State Board. Mr. Otto Wagnild, long-time assessor of Teton County, was chosen for the position and has been employed in that capacity since that time.

The Supervisor, whose time at first was devoted largely to assisting and advising county tax officials in the discharge of their duties, now performs many other services. He sees that all assessments, including railroad and utility assessments made by the State Board, are properly entered on the county rolls and correctly classified, and that county reports to the State Board of Equalization are properly prepared. He investigates all appeals and assists the Board in conducting the hearings thereon.

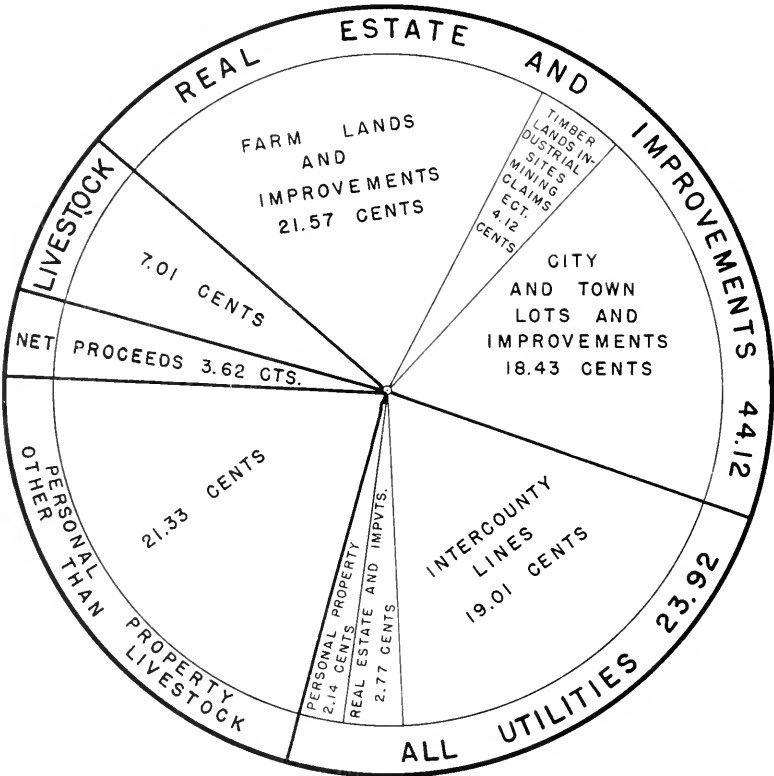

The Supervisor, on request, consults with Boards of County Commissioners, County Assessors and taxpayers relative to the reclassification of lands and reappraisal of all improvements, and assists in the initiation of such projects.

The Supervisor makes special investigations for the Inheritance Tax division, resulting in increased valuation and consequent taxes in a great number of cases, and confirmation of submitted values in others. Such investigations greatly facilitate the work of the Inheritance Tax division.

TAXABLE VALUATIONS—1923-1950

INHERITANCE TAX DEPARTMENT

The Inheritance Tax collections for this biennial period amounted to \$861,143.28. Although this represents a decrease in the amount of tax collected, an increased checking program has been adopted by this department, which has produced marked results. It should also be noted that there were no unusually large estates during the past two years. The largest estates handled were as follows.

Dr. George A. Windsor, Park County,	Tax:	\$18,616.58
Arne Haugse, Cascade County,	Tax:	\$12,581.10
Catherine E. O'Connor, Park County,	Tax:	\$10,197.50
A partial payment was made in Augusta Kohrs,		
Lewis & Clark County, ,	Tax:	\$22,908.70

During the period attorneys and personal representatives submitted reports to the Board for audit involving 7,135 estates. In addition, the Board issued 4,359 consents to transfer shares of stock in Montana corporations, owned by non-resident decedents. The tax collected from such non-resident decedents amounted to \$13,035.49.

Total collections for the respective years of the biennium were as follows:

For the fiscal year ending June 30, 1949	\$439,176.91
For the fiscal year ending June 30, 1950	\$421,966.37

All Inheritance Tax collections are credited to the State General Fund.

On numerous occasions eastern attorneys and trust companies have expected to pay a fee for a consent to transfer stock in Montana corporations, owned by non-resident decedents. Since our reciprocity law passed in 1945, most of our consents have been issued without collecting any tax. If a two dollar (\$2.00) fee were imposed on all transfers, and this amount used for the administration of the Inheritance Tax Department, it would greatly help to cover the cost of printing, labor and services rendered.

Section 91-4405, R. C. M. 1947, with respect to joint tenancies should be clarified. If the tax were imposed upon one-half or other proper fraction, however acquired, and irrespective of contribution, it would avoid the present controversies.

The law should be amended with respect to decedents' estates so that petitions for probate of wills or for letters of administration must be made within six (6) months after death. In several instances, neither probate nor inheritance tax proceedings have been commenced until several years after death. We find that in the meantime much property has become lost destroyed, or has disappeared, to the detriment of the State of Montana.

We also find it would be advisable to amend the law with respect to jointly held safety deposit boxes and joint bank accounts; to prevent removal of the contents of such safety deposit boxes and such accounts in which a deceased person was interested until the contents and amounts have been inspected by this Board, and the proper record made to insure payment of the Inheritance Tax, if any is due.

MOVING PICTURE THEATRE LICENSE TAX

Chapter 33, Title 84, R. C. M. 1947, imposes a license tax for the privilege of operating moving picture theatres. The rate of tax is 1¼ % per quarter on income in excess of \$3,000.00 derived from the sale of moving picture theatre tickets. Chain theatre operators are allowed an exemption of only \$3,000.00 per quarter on the combined receipts of all theatres comprising a chain. Report and statement of receipts must be filed as soon as possible after the close of each quarter, and must be accompanied by an application for a renewal license covering the quarter next ensuing.

Tax accruals for the past biennium are as follows:

FISCAL YEAR 1948-1949**INDIVIDUAL THEATRES:**

Third quarter, 1948	\$ 1,951.85
Fourth quarter, 1948	1,722.00
First quarter, 1949	1,505.38
Second quarter, 1949	2,209.23
TOTAL	\$ 7,388.46

CHAIN THEATRES:

Third quarter, 1948	\$ 8,907.08
Fourth quarter, 1949	9,485.73
First quarter, 1949	9,598.86
Second quarter, 1949	9,272.29
TOTAL	\$37,263.96

Total for fiscal year 1948—1949 **\$44,652.42**

During the fiscal year 1948-1949 there were 87 individual theatres operating, of which 34 paid a tax and 53 were non-taxable. 23 Chains operated 71 theatres.

FISCAL YEAR 1949-1950**INDIVIDUAL THEATRES:**

Third quarter, 1949	\$ 2,828.86
Fourth quarter, 1949	1,485.81
First quarter, 1950	1,406.07
Second quarter, 1950	2,598.19
TOTAL	\$ 8,318.93

CHAIN THEATRES:

Third quarter, 1949	\$ 9,477.19
Fourth quarter, 1949	10,458.95
First quarter, 1950	9,458.45
Second quarter, 1950	9,345.03
TOTAL	\$38,739.62

Total for fiscal year 1949-1950 **\$47,058.55**

During the fiscal year 1949-1950 there were 91 individual theatres operating, of which 41 paid a tax and 50 were non-taxable. 28 Chains operated 90 Theatres.

All Moving Picture Theatre License taxes are distributed to the credit of the general fund.

PERSONAL INCOME TAX

The following schedule constitutes a graphic picture of the economic changes which have taken place in Montana during the past sixteen years. It shows that in 1934 the collections were \$153,164.60 and that in 1950 collections were \$3,687,677.99. The total number of returns filed for the first year was 17,042 whereas 158,327 were filed in 1950.

Back tax collection records were first established in 1938 covering the year 1937. For that year the number of back tax returns filed was 2,332 and the amount collected was \$30,405.52. In 1950 the number of back tax returns filed was 13,037 and tax collected was \$302,206.74. The back tax returns filed increased five times whereas the increase in the amount of tax collected increased ten times.

The principal function of the Income Tax Department is to collect back taxes. Back taxes are of two types. One is the tax collected from those who filed no returns, which is called delinquent tax and the other is collecting additional tax because of errors made in returns, which are filed on time, and is called deficiency tax.

It is necessary to process all the 158,000 returns to find out which ones contain errors. This requires the services of auditors who are skilled in accounting and income tax law. This class of talent has been greatly in demand in recent years at wages in excess of that provided for in our budgets of the past. The work load has grown beyond the capacity of our present staff to perform.

The same class of skill is required in the canvass for delinquent returns for the reason that most all delinquent returns are prepared by our auditors.

More than 200,000 information returns are filed annually on Form 1-A by those who pay salaries, interest, rents, dividends or other fixed or determinable income, giving the name, address and amount paid to each. It is thus necessary to find out which ones have filed returns and which ones have not filed. The information returns for those who have filed must be compared with the return to determine whether the income reflected in the information return has been fully included. The remaining information returns constitute the major part of our delinquent projects.

Out of this list about 40,000 are selected as the ones which appear to be worth further expense in processing. About 10,000 will be productive. This process is an annual problem. It recurs year after year. These campaigns are never finished. They are over-lapping one year with the next. Constant vigilance and manpower is required to prevent a breakdown in the processing machine.

Of the 13,037 returns involving back tax collections of \$302,206.74 last year approximately 10,000 were delinquents picked up as the result of the efforts of the Income Tax Department and yielded approximately \$200,000.00.

It is well known that the penalties involved in these delinquent returns have influenced many other taxpayers to voluntarily file returns and others to be more careful in the preparation of returns filed.

The right to prosecute collections in other states is becoming more and more important. Many states adopting reciprocity laws giving other states access to their courts in the collection of tax.

Adequate office space and trained personnel will produce the maximum of revenue.

CIGARETTE LICENSE TAX LAW

In 1947 the Montana State Legislature passed a Cigarette License Tax Law which is administered under the provisions of Chapter 56, Title 84, R. C. M. 1947.

This law imposes a tax of 2 cents on each package of cigarettes sold and consumed within the State. By posting a \$5,000.00 bond, cigarette dealers and distributors are allowed to use Meter Machines which imprint an insignia on each package of cigarettes, showing that the Montana Tax has been paid. A discount of 10% is allowed each purchaser of stamps or user of a Tax Meter Machine.

Both wholesalers and retailers are allowed to purchase stamps. Each wholesaler and retailer must have a license from this department for the purpose of selling cigarettes.

Licenses are issued on a permanent basis and must be returned for cancellation when the sale of cigarettes is discontinued. Fees are \$15.00 for a wholesale license and \$5.00 for a retail license.

All taxes collected are credited to the General Fund, after expenses of administration are deducted.

Cigarette Tax Collections are as follows:

FISCAL YEAR July 1, 1948—June 30, 1949

July, 1948	\$ 127,214.51
August, 1948	111,464.38
September, 1948	117,199.34
October, 1948	104,401.60
November, 1948	107,625.16
December, 1948	93,884.50
January, 1949	115,558.08
February, 1949	76,441.84

Cigarette License Collections:

FISCAL YEAR July 1, 1948—June 30, 1949	\$ 4,625.00
FISCAL YEAR July 1, 1949—June 30, 1950	\$ 4,870.00

CORPORATION LICENSE TAX DEPARTMENT

Introductory Statement. The corporation license tax is imposed for the privilege of doing business in Montana in the year in which the tax is paid, and it is based upon the net income of the corporation for the preceding taxable year. The rate of tax is 3%. During the past biennium collections amounted to \$3,886,932. This is an increase of 21% over collections of the previous biennium. As of June 30, 1950, 6,007 corporations were required to file returns under this statute; approximately 78% being domestic corporations and 22% foreign corporations. Collections, however, are received in an inverse proportion, i e., foreign corporations paying approximately 60% of the total revenue and domestic corporations paying the remaining 40%.

Results of Audit Program. Additional deficiency assessments were rendered for the fiscal year ended June 30, 1950, after audit in a total of 722 cases. These deficiency assessments amounted to \$75,489.25 or an average of \$104.56 per audit. The cost of conducting this audit program amounted to 7c per deficiency dollar assessed.

Further extension of this audit program, particularly with regard to foreign corporations, is limited only by insufficient departmental funds. Of the above-mentioned deficiency assessments, none resulted from out-of-state field examination. To the extent that we have been unable to conduct these examinations, we have been forced to concentrate on and discriminate against Montana domestic corporations. It is our opinion that at the present time the largest number of erroneous returns are in this foreign corporation class. These returns should be corrected and deficiency assessments rendered where necessary. This, however, can only be done in each case after examination and conference in the home office of the foreign corporation. It is to be remembered that the most recent out-of-state field trip was over ten years ago. It is also to be remembered that this trip resulted in additional tax collections to the State of approximately \$1,100.00 for each day out of the state. The need for this program is urgent.

Revenue Trends. Collections under this statute have increased each biennium during the post-war period. The general high-level of corporate earnings, the increased number of corporations doing business, and the post-war reduction in Federal income taxes have been the principal causes of this steady increase. The converse of this situation portends to prevail. Federal income tax rates as applied to corporations have already been increased and the prospect of further increases—through the imposition of an excess profits tax or increased rates—seems certain. These federal taxes constitute an allowable deduction in determination of taxable income under our laws. Thus, to the extent that these taxes increase and will increase, our revenue will decrease. The severity of this revenue decrease is dependent upon future Federal fiscal policy, but it is now evident that there will be an appreciable revenue decrease. Remedy of this problem can be accomplished by an amendment disallowing this deduction for State tax purposes as was fully discussed in previous biennial reports.

Legislative Recommendations. Amendments deemed necessary for improved administration of this statute appear at page 9 of this Report under "Comments and Recommendations."

STATISTICAL INFORMATION

Statistics follow which show (1) the additional deficiency assessments resulting from field and office audits for the past ten fiscal years and (2) the classification of collections from the various types of business for the past four fiscal years.

CHAIN STORE LICENSE TAX

The Chain Store License Tax Law is administered under the provisions of Chapter 24, Title 84, R. C. M. 1947, which imposes a graduated license tax fee on all stores, depending on the kind and number of stores operated.

The Chain Store License Tax Law was first inaugurated in 1933. In 1937, a second Chain Store License Tax Law was passed and declared unconstitutional by the Supreme Court of the State of Montana, due to a faulty enacting clause.

The Law of 1937 was amended by the law of 1939 under which we now operate. All chain store license taxes are distributed to the credit of the general fund. After 1937 there was a substantial increase in the number of licenses issued and the fees collected until the outbreak of the war. During the war period the number of licenses issued and fees collected decreased on account of conditions imposed by the war. Since the close of the war a great number of new places of business have been established and consequently the Chain Store License Tax Fees have materially increased.

For the fiscal year beginning July 1, 1949 and ending June 30, 1950, an all time high of 11,720 store licenses of all classes were issued:

Store License Tax Fees are as follows:

WHOLESALE STORES:

Each store	\$ 38.00
----------------------	----------

RETAIL MERCANTILE ESTABLISHMENTS:

One store	\$ 5.50
Two stores	56.00
Three stores	156.50
Four stores	307.00
Five stores	507.50
Each store in excess of five	200.50

Gasoline Filling Stations, Gasoline Distributing Plants, Grain Elevators, Lumber Yards and Hardware Stores:

One store	\$ 5.50
Two stores	13.50
Three stores	29.00
Four stores	52.00
Five stores	82.50
Six stores	120.50
Each store in excess of six	38.00

The foregoing fees include the application filing fee of 50 cents for EACH store. All store licenses expire on the 31st day of December of the year for which they are issued. Places of business opening after July 1st. of a calendar year may obtain a half year license by paying one half the license fee plus the regular filing fee of 50 cents. It is suggested that the half year license fee be eliminated from the law and the full year fee be paid regardless of the time of the year that the place of business is established.

CHAIN STORE LICENSE TAX COLLECTIONS:

Fiscal Year July 1, 1948 to June 30, 1949 inclusive:

689 Full Year Wholesale Licenses at \$38.00 each	\$26,182.00
18 Half Year Wholesale Licenses at \$19.25 each	346.50

TOTAL		\$ 26,528.50
-------	--	--------------

8,780 Full Year Individual Retail Licenses at \$5.50 each	\$48,290.00
414 Half Year Individual Retail Licenses at \$3.00 each	1,242.00

TOTAL	\$49,532.00
-------	-------------

Less refunds on account of 27 duplicate or erroneous Licenses	151.50

TELEPHONE LICENSE TAX

Chapter 26, Title 84, R. C. M. 1947, imposes a license tax of 1¼ % per quarter on the gross income, less \$250.00 exemption from the operation of all telephone business transacted within the State, whether operated by an individual, corporation, partnership or co-operative association. Several of the telephone companies are not liable for a tax, due to the fact that they merely pay a monthly rental rate to the trunk company for connecting privileges and do not derive any income.

The tax is payable quarterly and must be paid within sixty days after the end of each quarter. Tax payments vary from a few dollars to as much as several thousands each quarter. By far the largest portion of the tax is paid by one company. All telephone license taxes are distributed to the credit of the general fund.

Tax accruals for the past biennium are as follows:

FISCAL YEAR 1948-1949:

Third quarter, 1948	\$21,126.82
Fourth quarter, 1948	21,049.21
First quarter, 1949	20,897.82
Second quarter, 1949	22,162.48
Total fiscal year 1948-1949	\$85,236.33

FISCAL YEAR 1949-1950:

Third quarter, 1949	\$22,775.12
Fourth quarter, 1949	22,318.62
First quarter, 1950	21,998.84
Second quarter, 1950	23,911.86
Total fiscal year 1949-1950	\$91,004.44

COAL MINERS AND DEALERS LICENSE TAX

Chapter 208 and 209 of the Revised Codes of Montana of 1935, enacted by the Legislature of 1921, provides for a license tax in an amount equal to 5 cents per ton on each ton of coal mined within the State, and an equal amount of each ton of coal shipped into and sold within the State. Chapter 200, Laws of 1939, effective March 17, 1939, amended the producers law to permit an annual exemption of 50,000 tons. Proceeds are credited to the state general fund.

OIL PRODUCERS LICENSE TAX

Chapter 217 of the Revised Codes of Montana of 1935, enacted by the Legislature of 1921, provided for a license tax in an amount equal to one per cent of the total gross value of all petroleum and other mineral crude oils produced within the state, the proceeds from this act to be deposited to the credit of the general fund of the state. The Legislature of 1923 amended the law, raising the tax to two per cent.

TRADE STIMULATORS LICENSE TAX LAW

In 1947, the Montana State Legislature passed a Trade Stimulator License Tax Law which is administered under the provisions of Chapter 57, Title 84, R. C. M. 1947.

This law imposes a tax of 3% on the potential value of each trade stimulator exhibited. This includes punch boards, pull cards and similar devices that announce that an award will be made to a purchaser of a ticket, in terms of merchandise or other things of value.

Under the provisions of this law the County Treasurer of each County within the State is empowered to sell trade stimulator stamps and remit the proceeds of such sales to the State Board of Equalization at the end of each month, same to be deposited to the credit of the State General Fund. The sale of stamps is also made through the office of the State Board of Equalization.

Trade Stimulator Tax Collections are as follows:

FISCAL YEAR—July 1, 1948—June 30, 1949.

TELEGRAPH LICENSE TAX

Under the provisions of Title 84, Chapter 23, Revised Codes of Montana, 1947, a license tax of two per cent of intrastate income is imposed upon the operators of telegraph lines for the privilege of engaging in such business. One company reported under this Act, and paid taxes which amounted to a total of \$2,948.93 during the fiscal year ended June 30, 1949, and \$1,978.97 during the fiscal year ended June 30, 1950.

PUBLIC CONTRACTORS LICENSE

Title 84, Chapter 35, Revised Codes of Montana, 1947, provides that all contractors who submit proposals to, or enter into contracts with the State of Montana or any of its political subdivisions must procure a license from the State of Montana whenever the value of such bids or contracts exceed \$1,000.00. The law authorizes the issuance of three classes of license, depending on the value of the contract as follows:

Class A—Amount of Contract, unlimited, fee \$200.00.

Class B—Amount of Contract, limited to \$50,000.00, fee \$100.00.

Class C—Amount of Contract, limited to \$25,000.00, fee \$10.00.

Licensees may secure a renewal of their licenses in each successive calendar year by payment of 50 per cent of the fee for the original license, provided application for renewal is made on or before the first day of March of said successive calendar year.

All money collected under the provisions of Chapter 35 is deposited to the credit of the General Fund.

Public Contractors License Fees Collected by State Board of Equalization**1949:**

	Class of Licenses	Number of Licenses	Amount
New Licenses	Class A	70	\$14,000
	Class B	39	3,900
	Class C	155	1,550

	Class C	165	825
		<hr/> 620	<hr/> \$36,635

NATURAL GAS DISTRIBUTORS TAX

Under the provisions of Title 84, Chapter 21, Revised Codes of Montana, 1947, a license tax of $\frac{3}{8}$ of one cent (1c) per thousand cubic feet is imposed upon distributors and exporters of natural gas for the privilege of distributing to consumers within the state and exporting through a pipe line for use outside the state.

The provision relating to exported gas was declared invalid by our Supreme Court in 1943. No taxes were ever collected under this provision.

All taxes collected under the provisions of this Act are credited to the General Fund of the state.

Eight (8) companies are reporting under this Act:

	Number of Thousand Cubic Feet	Amount of Tax Paid
FISCAL YEAR—July 1, 1948 to June 30, 1949:		
Third quarter, 1948	3,615,493	\$ 13,558.09

FREIGHT LINE TAX

Chapter 137, Laws of 1949, effective July 1, 1949, provides that every freight line company shall pay annually a sum in the nature of a tax in the amount of five per cent of total gross earnings within the state. The declared intention is that the tax so computed shall not be greater than the amount that would be paid if the cars were taxed on an ad valorem basis. Proceeds are credited to the State General Fund.

Railroads withhold the amount of tax due from freight line companies operating in the state and remit direct to the State Board of Equalization. Opportunity is provided freight line companies to protest and recover back any tax they deem excessive.

Eight railroads reported gross earnings of \$1,525,671 by freight line companies operating within the state during the last six months of 1949 and paid tax thereon in the amount of \$76,283.56.

SLEEPING CAR TAX

Title 84, Chapter 23, Revised Codes of Montana, 1947, provides for a tax equal to 1½% of the value of property of sleeping car companies within the state. The law provides the manner of determining the valuation for assessment purposes. The board shall determine the value of the capital stock of such company invested or used in its business. It shall then divide the amount so obtained by the total car mileage on railroads over which the company did business to obtain the value per car mile, and shall then multiply the value per car mile thus obtained by the total number of car miles within the state. The result shall be taken and considered as the actual value of the property of such company subject to the tax in this state. All taxes collected under the provisions of this law are credited to the General Fund of the state.

	1949	1950
The Pullman Company	\$ 9,784.33	\$9,869.29

EXPRESS COMPANY TAX

Title 84, Chapter 17, Revised Codes of Montana, 1947, provides for a tax in an amount equal to four per cent (4%) of the gross receipts of each express company for business transacted within the state. All license taxes collected under the provisions of this Act are credited to the General Fund of the state.

	1949	1950
Railway Express Agency, Inc.	\$20,150.80	\$18,501.90

ELECTRICAL ENERGY TAX

Title 84, Chapter 16, Revised Codes of Montana, 1947, imposes a license tax of one per cent (1%) of gross receipts upon persons and corporations engaged in the business of generating electrical energy in the state.

The original law imposed a rate of $\frac{5}{8}$ of one per cent ($\frac{5}{8}$ of 1%) of gross receipts. The rate was increased to one per cent (1%) by an act approved March 5, 1937.

All taxes collected under the provisions of this Act are credited to the General Fund of the state.

Twelve companies are licensed under the provisions of the law.

***SLOT MACHINE LICENSE LAW**

Chapter 142, Laws of 1945, permitted the operation of slot machines by religious, charitable, fraternal and nonprofit organizations upon payment of specified license fees. The schedule of fees was determined by population as follows:

Cities with a population of more than 10,000	\$200.00 per machine annually
Cities with a population of more than 5,000	\$100.00 per machine annually
Towns or localities with a population less than 5,000	\$ 50.00 per machine annually

Collections for the calendar year 1949	\$506,000.00
Collections for the calendar year 1950	\$499,050.00
Total number of machines licensed in 1949	6,514
Total number of machines licensed in 1950	6,218

NOTE: *This law was declared invalid by the Montana Supreme Court, June, 1950.

GASOLINE REFUND DEPARTMENT

During 1948 the board decided to set up two departments, one to handle the gasoline refunds, the other the gasoline tax.

The refund law provides that a refund be paid on gasoline not consumed for propeling vehicles over public roads, providing certain conditions are met.

Ten years ago when refunds amounted to a little over one million dollars, the office space alocated and the force was sufficient. This last year the refunds were ust short of three million and a considerable portion of the claims were paid at the rate of five cents, from this it would seem that an extension of the department is advisable at this time to better determine the judification of the payment of the claims received.

The amount appropriated to the drawback fund for the biennium, the transfers to and from the highway fund for the biennium, the percentage of refunds to the tax collected and to the gasoline consumed, and the number of claims allowed and the claims presented are as follows:

	July 1, 1948 to June 30, 1949	July 1, 1949 to June 30, 1950
Amount appropriated which is 25% of tax collected	\$2,591,597.67	\$3,152,146.96
Refunds allowed and paid	2,654,994.51	2,842,364.48
	<hr/>	<hr/>
Balance reverted to Highway Fund		309,782.48
Cancelled warrants	450.55	
	<hr/>	<hr/>
Total Unexpended and Transferred to Highway Fund from Drawback Fund		309,782.48
Amount Transferred from Highway Fund to balance Drawback Fund	62,947.29	
Percentage of Refunds to Tax Collected	25.6116%	22.5431%
Percentage of Refund to Gasoline Consumed	24.8163%	21.8048%
Number of claims allowed	44,164	40,080
Number of claims presented	49,221	45,345

*Mining, Including Quartz, Placer, Coal Mining, Quarrying, Milling and Smelting.

**Domestic: For use in home, such as cooking, heating and lighting.

***State Wide: Gasoline consumed by companies and individuals operating in more than one county where it is impossible to allocate to any degree of accuracy the amount used in separate counties.

****Unclassified: Refunds allowed for gasoline used in motor boats, ski lifts and other purposes which do not fall into any of the preceding classifications.

*Mining, Including Quartz, Placer, Coal Mining, Quarrying, Milling and Smelting.

**Domestic: For use in home, such as cooking, heating and lighting.

***State Wide: Gasoline consumed by companies and individuals operating in more than one county where it is impossible to allocate to any degree of accuracy the amount used in separate counties.

****Unclassified: Refunds allowed for gasoline used in motor boats, ski lifts and other purposes which do not fall into any of the preceding classifications.

GASOLINE LICENSE LAW

Chapter 92, Laws of 1929, provides for a license tax equal in amount to five cents per gallon on all gasoline manufactured and sold within the state, and on all gasoline shipped into the state. Effective July 1, 1949, the gasoline tax was increased to six cents per gallon.

Seevnty-five per cent of the money derived from this license tax is credited to the State Highway Fund, one cent per gallon of all aviation gasoline to Aviation Fund and the remainder to the Gasoline License Drawback Fund. If Drawback fund is insufficient, State Treasurer shall transfer from Highway Fund. At end of fiscal year all money in Drawback Fund is transferred to Highway Fund.

FISCAL YEAR—	Refiners	Distributors and Dealers	TOTAL

Chapter 116, Session Laws, 1934. Tax collected on motor fuels less that forty-six (46) degrees Baume used on Public Highways and State Hgihway Construction.

July, 1948 to June 30th, 1949 \$609,281.29

Section 2381.12 R. C. M. 1935: "In making the computation of license tax due two per cent (2%) of the amount of such tax shall be deducted as an allowance for evaporation an dother loss of gasoline handled by such dealer."

Amount deducted on gasoline tax paid by re-
finers and dealers from July 1, 1948 to and in-
cluding June 30th, 1950, 2% for evaporation
and other loss \$519,323.96

Amount of gasoline sold United States Gov-
ernment Agencies from July 1, 1948 to and
including June 30th, 1950 on 4,830,384 gallons 266,260.91

TOTAL \$785,584.87

(See Panhandle Oil Company vs. Mississippi 277 U. S. 218)

* Various other expenses such as the Administrative Costs of the Highway Department, interest on debentures and other information pertinent to the gasoline tax will be covered by the report of the Highway Department.

** Tax increased July 1, 1949 to six cents.

TAXATION OF MINES

TAXATION OF MINES

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation mines are assessed by the county assessors at the price paid the Government therefore, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessments being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The **taxable** value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of the full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries, and mines producing precious or semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold the amount so paid from future royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

Mines License Taxes

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay direct to the state treasurer a license tax of five cents per ton on all coal mined in excess of 50,000 tons annually; oil producers pay 2% of the value of all oil produced; cement manufacturers pay four cents per barrel, plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of $\frac{1}{4}$ of 1%; the next \$150,000 or portion thereof pays a tax of $\frac{1}{2}$ of 1%; the next \$100,000 or portion thereof pays a tax of $\frac{3}{4}$ of 1%, and all over \$500,000 pays a tax of 1%.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1949 was \$473,639.69. In 1950 the amount payable is \$432,470.63. All of this revenue is credited to the general fund of the state.

TITLE 84, CHAPTER 3, REVISED CODES OF 1947**CLASSIFICATION OF TAXABLE PROPERTY**

Sec. 84-301. **Classification of property for taxation.** For the purpose of taxation the taxable property in this state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land to explore or prospect or dig for oil, gas, coal, or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and county board of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, coal, oil, minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds, boats and all water craft, harness, saddlery and robes.

Class Three. Livestock, poultry, and all agricultural products except grain, hay and vegetables on the farm or in storage awaiting processing; stocks of merchandise of all sorts, together with furniture and fixtures used therewith; and all office or hotel furniture and fixtures.

Class Four. All land, town and city lots, with improvements, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical associations organized under the laws of Montana.

(c) Grain, hay and vegetables on the farm, or in storage awaiting processing.

Class Six. The shares of stock of national banking associations and the moneyed capital employed in conducting a banking business by any other banking corporation, association or individual in this state. Such money ascertained by deducting from the moneys and credits of such banking corporation, association, or individual, the amount of the deposits and any indebtedness representing money borrowed for use in said business, and the value of the shares of any national banking association, to be ascertained by deducing the value of all real estate of such association.

Class Seven. All property not included in the six preceding classes.

Sec. 84-302. **Basis for imposition of taxes.** As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1, One hundred per cent; Class 2, Twenty per cent; Class 3, Thirty-three and one-third per cent; Class 4, Thirty per cent; Class 5, Seven per cent; Class 6, Forty per cent; Class 7, Forty per cent.
